RESTORE + CONNECT + INNOVATE

**21ST BIENNIAL CONFERENCE
MARCH 5-7, 2024
GRAND JUNCTION, CO**

SPONSORSHIP OPPORTUNITIES

Partner with us at the leading restoration conference in the West.

Since 2001, RiversEdge West has been conducting riparian restoration research and management conferences with a focus on impacts to riverside habitat in the arid western U.S. These gatherings are driven by RiversEdge West's commitment to advance the knowledge and practice of riparian restoration.

The primary goal of REW's biennial conference is to share the latest scientific findings in the field of riparian restoration with practitioners, students, and researchers alike. Additionally, the conference serves to connect the people managing impacted lands with the techniques, findings, and products that help make restoration successful. This venue also serves as a valuable networking opportunity to build relationships that foster innovation, collaboration, new projects, and advance research.

Your sponsorship will directly support all aspects of the conference: from scholarships for students and networking events to the cost of facility rental and meals.
